

City College Plymouth Climate Emergency Declaration (22/10/21)

City College Plymouth, its students, staff, corporation, recognised Trade Unions: the University and College Union and Unison, our Student Council and the National Union of Students, recognises the enormous threat of climate change.

We accept that the climate crisis has arrived, and that the climate emergency is a reality which will affect every person on this planet.

We know that we must urgently work together to protect the futures of our students, our staff, our wider community, our biosphere, and our planet. There can be no further delay.

We understand that to declare a climate emergency requires action on climate and sustainability issues in every aspect of college life, and we undertake to place responding to the climate emergency at the heart of what we do in the future.

We know we can only meet these challenges successfully if we unite students, staff and union members under a common purpose, dedicated to achieving a common goal.

Therefore we formally declare a climate emergency, and we promise to work together to meet and overcome this crisis for the benefit of all.
